

Working Together for Safer, Cleaner, More Efficient Business.

As a global leader in the development of ESG, Environmental, Health & Safety, and Quality Management software, we truly empower organizations to meet the challenges of an increasingly complex marketplace – while materially minimizing their negative social, environmental, and human impacts.

With the world around us growing in complexity, so do the risks faced by businesses. Employees, shareholders, customers, regulators, and investors are keenly watching and tracking how companies deliver performance – responsibly and sustainably. Going beyond profit – people, processes, and the planet increasingly matter in today’s times. No longer can companies ignore their impact on the world, and those that develop ESG mandates are setting the foundation for continued success and longevity.

Since our founding in 1992, Intelex has been innovating and enabling organizations globally – across diverse industries – to send their employees home safely every day, while leaving behind a more sustainable world for the generations that follow. Our scalable platform is enabling companies achieve their immediate and strategic EHSQ and sustainability goals, drive sustained compliance through automated workflows and digital compliance management, and ensure that only the highest quality products make it to the market. We connect people, processes, and technology for a data-powered view of your EHS & Quality initiatives with real-time insights that guide better decisions at all levels.
